

Open Source Software Statement

Safran Passenger Innovations LLC (SPI) uses Open Source software in some of its products, including software licensed under the GNU General Public License ("GPL"). Most open source packages are used unmodified as binaries, but where required, SPI has modified the open source package to perform the functions required for SPI products. SPI makes the open source software available consistent with the terms of the GPL and LGPL regardless of whether those licenses apply. The code made available by SPI is for informational purposes only and distributed "As Is" with no support and/or warranty of any kind intended, implied, or provided. If you would like to receive the source code via a download, contact us at compliance@zii.aero and we will send you instructions for accessing open source software used in SPI products. Also, any questions on open source software used by SPI can be sent to compliance@zii.aero.
