Late deliveries are subject to Buyer's rejection and return for credit at Seller's expense.

4. **TECHNICAL REQUIREMENTS:** All Items ordered to specifications or other technical requirements shall comply with such requirements current as of the date of this Order unless otherwise agreed by Buyer in writing or via change order. Seller shall flow down applicable product specifications, descriptions and requirements to sub-tier suppliers including key characteristics required to ensure such compliance.
5. **PERFORMANCE REQUIREMENTS:**
  - 5.1 **Quality Requirements**
    - 5.1.1 **Quality Standards** - Seller shall comply with Buyer's Quality Requirements Document ("Supplier Quality Assurance Manual" SQAM-000 issue 09) as applicable, incorporated into this Order by reference, as well as any other specifications, workmanship standards or instructions specified in this Order. When furnishing assemblies or subassemblies that have a parts list detailed or specified on Buyer's drawing, Seller shall obtain the approved supplier part on such list from the approved supplier identified under the Part Changes tab. Seller shall only deliver Items containing components from manufacturers for which the part status is APVD (Approved), NSR (No Status Required meaning any manufacturer's parts may be furnished), COMP (First Article Inspection Complete), or REQD (First Article Inspection needs to be completed).
    - 5.1.2 **Quality Level** - Seller shall maintain a quality level of zero defects on all Items delivered to Buyer.
    - 5.1.3 **Quality Performance Effects** - The Parties agree that Seller's quality performance is subject to monitoring and that failure to maintain the quality requirements above may result in Buyer, in its sole discretion, electing to pursue any or all of the following actions, in addition to all other remedies available to Buyer under the terms and conditions of this Order and at law and in equity:
      - a. **Quality Corrective Action Plan:** Buyer shall request and Seller agrees to submit a written corrective action analysis and recovery plan for all Items that fail to meet the quality requirements defined above. The quality corrective action and recovery plan shall be submitted within ten (10) days of Buyer's request and shall include a containment plan and a complete corrective action and recovery plan including root cause analysis. Seller's management will present the quality corrective action and recovery plan to Buyer for approval.
      - b. **Quality Performance Improvement Plan:** Buyer shall request and Seller agrees to promptly prepare and submit a comprehensive quality performance improvement plan including a recovery plan when Seller's quality corrective action plan does not produce acceptable results. Seller's senior management will present the quality performance improvement plan to Buyer for approval.
  - 5.2 **Forecasts** - In the event Buyer has provided Seller any delivery forecast, such delivery forecast is being provided by Buyer without liability or obligation. Seller acknowledges and accepts that changes

may occur in the delivery forecast, dates, and/or quantities listed therein and Seller acknowledges that all costs, damages and claims Seller may incur resulting from such changes are the sole responsibility of Seller.

5.3 **Item Obsolescence** – Seller shall promptly notify Buyer in writing after Seller identifies any Items or components of any Items as potentially becoming obsolete (“Obsolete Item”). Such notice shall be provided at least six (6) months prior to the anticipated obsolescence date. Twelve (12) months prior to ending its production of the Obsolete Item, Seller shall provide Buyer with a replacement Item for the Obsolete Item which has design parameters and specification documentation fully consistent with the Obsolete Item’s then-current design parameters and requirements documents. Seller shall be liable for all qualification and certification expenses associated with transitioning to the replacement Item or components thereof. At Buyer’s request, Seller shall also make a final production run of sufficient quantity of the Obsolete Item to satisfy Buyer’s product life requirement.

5.4 **On-Time Delivery and Completion**

5.4.1 **On-time Delivery Level** – Time is of the essence. Seller shall maintain on-time delivery level of 100% on all Items. Delivery is considered to be on-time when shipments are received no more than seven (7) days ahead or one (1) day after the scheduled delivery date.

5.4.2 **Schedule Acceleration/Deceleration** – Buyer may revise any delivery or completion schedule without cost or change to the unit price stated in this Order at any time by providing Seller with written or electronic notice of the revised schedule. Seller shall review and update Order status weekly, and must confirm delivery status including pull in and push out requests and cancellations, under View/Manage Open Orders in the Orders tab for Seller’s account.

5.4.3 **Delivery Performance Effects** – Seller’s on-time delivery performance is subject to monitoring and the Parties agree that in addition to all other remedies available to Buyer under the terms and conditions of this Order and at law and in equity Seller’s failure to maintain the on-time delivery performance level waives any Buyer obligation to fulfill any commitment under this Order.

a. **Delivery Corrective Action Plan:** In the event Buyer elects not to terminate this Order for failure of Seller to meet any scheduled delivery or completion date, Buyer and Seller will conduct quarterly reviews of Seller’s delivery performance and implement a Seller delivery and completion corrective action analysis and recovery plan, to be submitted within ten (10) days of Buyer’s request.

b. **Delivery Performance Improvement Plan:** Should Seller fail to meet the delivery corrective action analysis and recovery plan, Seller shall promptly prepare and submit a comprehensive delivery performance improvement plan including a recovery plan for all Items that fail to meet the delivery corrective action plan. Seller’s senior management will present the delivery performance improvement plan to Buyer for approval.

5.4.4 **Force Majeure:** Neither Party shall be liable for damages for delay in performance arising out of causes beyond its reasonable control and without its fault or negligence, including, but not limited to, acts of God or of the public enemy, acts of any government authority, fires, floods, or unusually severe weather. If the delay is caused by the delay of a sub-tier supplier of Seller and if such delay arises out of causes beyond the reasonable control of both Seller and its sub- tier supplier, and without the fault or negligence of either of them, Seller shall not be liable to Buyer for such a delay unless the Items, components, or services to be furnished by the sub-tier supplier were obtainable from other sources in sufficient time to permit the Seller to meet the completion or delivery due dates. Seller will notify Buyer in writing within twenty-four (24) hours after the beginning of any such force majeure event and provide timely updates to Buyer until resolved. Seller will avoid or minimize all such failures, including, but not limited to, exercising work around plans and using expedited shipping. If performance is delayed for more than thirty (30) calendar days due to a Force Majeure event, the delay will be deemed a default and Buyer will have the rights under Section 10.2 except Buyer will not be entitled to monetary damages.

5.5 **Remedies** – The Parties agree that failure to meet the Performance Requirements in this Article 5 may render Seller as a non-preferred supplier, in the sole discretion of Buyer, which can be considered as cause for re-negotiation or termination of this Order. The following remedies are also available to Buyer:

5.5.1 Seller shall reimburse Buyer for all costs and expenses in connection with providing Seller and/or Seller’s sub-tier suppliers’ with technical, quality, or manufacturing assistance beyond that which Buyer would customarily provide to Seller or Seller’s sub-tier suppliers on a day-to-day basis. This shall include but not be limited to, Buyer provided training and support requested by Seller or as provided by Buyer to assist in resolving Seller significant or recurring non-performance issues. Seller shall reimburse Buyer for any such assistance at the established Buyer internal wage rate, which shall include fringe benefits, multiplied by the estimated hours recorded by Buyer, plus the actual material costs associated with providing such assistance. In addition, Seller shall, at Buyer’s request, pay for normal and customary expenses relating to salaries, living expenses, travel and any other reasonable expenses related to such assistance.

5.5.2 Buyer reserves the right to impose liquidated damages in the amount of one percent (1%) of the price of each delayed Item for each day of delay in delivery or completion, commencing on the day following the due date, up to a total of one hundred percent (100%) of the price of the delayed.

5.5.3 In addition to the foregoing, Buyer reserves all its rights and remedies at law or in equity.

5.5.4 The exercise of one of these remedies shall not be deemed a waiver of the right to exercise any other.

5.6 **Business Continuity** – Seller shall annually identify and review the risks that could significantly impact Seller’s ability to meet its performance obligations under this Order and take reasonable loss

prevention actions to reduce the frequency and/or severity of the impact of the risk. In addition, Seller shall develop and maintain actionable plans and strategies to limit any disruption of its performance obligations to a period not greater than two (2) weeks. Such plans and strategies shall include an annually updated business continuity plan in general conformance with either NFPA 1600 version 2013 or ISO 22301 version 2012 or any subsequent version or update. The business continuity plan shall identify the steps necessary to recover critical product/service-related functionality including, but not limited to, business activities, technologies, personnel and other resources. Seller shall allow a formal audit by Buyer of Seller's loss prevention and business continuity program. If Seller, in Buyer's reasonable judgment, fails to comply with the requirements stated above, Seller shall provide Buyer with a reasonable quantity of consignment inventory, based on forecasted demand and previous Order history, to ensure Buyer that Seller is able to meet its performance obligations under this Order. Seller shall notify Buyer within twenty-four (24) hours after any event that may cause a disruption in Seller's ability to timely meet its performance obligations. Seller shall provide a written recovery plan to Buyer for Buyer's approval within fourteen (14) days after such an event, defining how and when performance will resume to support this Order.

If Seller's proposal includes the cost of property made obsolete or excess by the change, Buyer may direct the disposition of such property. Buyer may examine Seller's pertinent books and records to verify the amount of any claim. Failure of the parties to agree upon such requested adjustment shall not excuse Seller from performing in accordance with Buyer's direction.

6.3 If Seller considers that Buyer's conduct (including any written or oral order) constitutes a change, Seller shall notify Buyer immediately in writing as to the nature of such conduct and its effect upon Seller's performance. Pending written direction from Buyer, Seller shall take no action to implement any such change.

6.4 The review or approval by Buyer of any work hereunder or of any designs, drawings, specifications or other documents prepared hereunder shall not relieve Seller of any of its obligations under this Order, nor excuse or constitute a waiver of any defects or nonconformity in any Item furnished under this Order, nor change, modify or otherwise affect any of the terms of this Order, including, but not limited to, the prices and delivery dates. Nothing in this Article 6 shall excuse Seller from proceeding without delay to perform this Order.

d. **IP Related to Obsolete or Terminated Items:** If (a) Buyer reasonably believes that Seller is, or will become, unable to produce, deliver, maintain or support any Item such that it is or will become an Obsolete Item (as defined in the Item Obsolescence clause above), or (b) in the event of termination for default of this Order with respect to such Item, Seller agrees to provide copies of all Seller's Foreground and Background IP necessary to test, produce,

manufacture, repair, and maintain such Item to Buyer upon request, at no charge. Buyer may use such IP to make, have made, use, sell, and support such Item for so long as the aircraft or Buyer product in which it is installed continues to operate. Any and all failures, delays, or forbearances of either Party in insisting upon or enforcing at any time any of the terms of this Order, or exercising any other terms, rights or remedies under this Order, shall not be construed as a waiver or relinquishment of any such terms and conditions, rights or remedies in those or any other instances or of any other terms, rights or remedies. The invalidity in whole or in part of any term or condition of this Order shall not affect the validity of any other term or condition.

**23.
