Marjolaine Grange
Safran Aircraft Engines,
Vice President, Quality & Improvement Initiatives

Dear Ms. Grange,

Due to the current difficulties in the certification audit planning for a reason of cross-border restrictive measures caused by a new coronavirus infection (COVID-19), by this letter the IAC Aviation Register extends the validity period of the Certificate № СПР-91 (issued 18.02.2020) until **August 18, 2022**.

It is necessary to ensure compliance of SAFRAN AIRCRAFT ENGINES with the requirements of AP-145 during this period.

The remaining necessary certification actions will be taken in accordance with the established procedures.

Best regards,

Gennady Shcherbakov
