Scope of L-1 ID businesses acquired

Biometrics & Enterprise access solutions

■ Global supplier of multimodal biometric solutions

- ∅ Leading iris and facial recognition capabilities
- ∅ Delivers advanced ID Solutions to Department of State, Department of Defense and Department of Justice
- ∅ Impressive portfolio of intellectual property
- ∅ Turnkey solution offerings

Secure credentialing

■ Major North American provider of secure credentialing solutions for both Federal and state programs

- ∅ Contracts with 44 out of 50 U.S. state Department of Motor Vehicles
- ∅ Produces 100 million credentials annually

Enrollment services

■ Major North American provider of biometric based identity vetting for Federal and state programs

- ∅ Operates over 1,000 enrolment centres across the US and Canada
- ∅ Captures 2+ million identities annually including biometric & biographic data

2010 turnover of \$450M; 1,300 employees in 20 countries

Benefits of the transaction

è L-1 adds a suite of best of breed technologies that enhances Safran's own technology and product offering across a broad range of ID management and Homeland Security applications

è Main owned technologies

- Ø AFIS software •
- Ø Secured printing •
- Ø Smart cards •
- Ø Explosive detection •

- Ø Multimodal biometric platform •
- Ø Iris recognition •
- Ø Facial recognition •
- Ø Livescan and multi-biometric acquisition devices •

This creates a pool of technologies to enhance further security for state and local governments, aviation and other critical infrastructure

Financial terms of the transaction

- è Acquisition by Safran of 100% of the stock of L-1
 - n **\$12.00 per share all in cash (\$1.09bn equity value)**
 - n **Financed with available cash on hand (cash-out in Q3 2011)**

- è Run-rate cost synergies of \$30M p.a.
 - n **To be realized within 18-24 months after closing**
 - n **Transaction & restructuring costs of c.€30M, of which €15-20M in 2011 (accounted for as *one-off items* in operating income)**

- è L-1 ID to be 100% consolidated by Safran; financial results to be incorporated into financial reporting for Safran's security activity
 - n **2011 pro-rata contribution under review**

Accretive from 2012 with operating synergies

Managing a company under a proxy structure

è Proxy agreement to protect US national security

- n **3 proxy holders selected by Safran, to be approved by US Gov^t**
- n **Activities under a proxy represent around 80% of L-1 business**
 - n US activities of L1 including L-1's Secure Credentialing Division (driver licenses and passports activities), L-1's Enrollment Services Division (background check), and L-1 Biometrics Division activities specific to US Government (the Concord, CA facility will be put outside the proxy)

è A proxy company is equivalent to any US-owned company for industrial security purposes

- n **May bid and perform on any level of classified contracts**

è Proxy structure is consistent with Safran's legitimate economic interests as a shareholder

- n **Implementation of synergies compatible with National Security Agreement signed with US Gov^t**

A global, world-class high-tech Security business
