

GROUP POLICY

SAFRAN'S RESPONSIBLE PURCHASING POLICY

Safran's responsible purchasing policy helps ensure that the Group meets its operational excellence and competitiveness objectives in line with its industrial policy and in accordance with its corporate social responsibility (CSR) and environmental commitments. This policy aims to guide our activity to suppliers that meet our requirements, especially with regard to safety, competitiveness and aerospace and defense market regulations, and that are willing to commit to Safran as part of a long-term, mutually beneficial and fair relationship.

OLIVIER ANDRIÈS
CEO

UNDERPINNED BY STRONG COMMITMENTS

- ▶ Meet our current and future performance-related needs (quality, costs, delivery).
- ▶ Offer customers innovative solutions that allow them to create value.
- ▶ Ensure that Safran's CSR commitments are reflected and fulfilled throughout our supply chain, along with efforts to reduce our sector's carbon footprint.
- ▶ Involve suppliers in the development of our products by allowing them to put forward their innovative solutions and expertise.
- ▶ Promote shared supplier management and rating methods and standards at all Safran companies to strengthen supplier performance management, while ensuring good-quality supplier relations.
- ▶ Support our main suppliers so that they can strengthen their industrial organization and their ability to integrate the wide variety of technologies needed for developing their products, while also expanding their use of digital technology - from the design stage through to deployment.

POLICY APPLICATION

In full compliance with the principles of the Group's ethical guidelines and best practices identified in the Safran Responsible purchasing guidelines.

In compliance with Safran's commitments to the authorities, trade associations and other partners.

Based on constant and close collaboration with and among all Safran companies and on implementation of One Safran best purchasing practices by all purchasing staff.
