

PRESS RELEASE

Safran selected by Spring Airlines for a NacelleLife™ service agreement on their Airbus A320neo

Singapore, MRO Asia Pacific, September 22th 2022

Safran Nacelles has been selected by Spring Airlines for the support of the nacelles of their Airbus A320neo equipped with CFM International* LEAP-1A engines over a period of 3 years.

Spring Airlines will have access to Safran Nacelles' shared pool of nacelles end-items. The Chinese airline will also benefit from OEM** guaranteed Maintenance, Repair and Overhaul (MRO) solutions at Safran Nacelles new repair station in Suzhou, China.

Alain Berger, Safran Nacelles' Executive Vice President – Customer Support & Services, commented: *“We are very proud to become Spring Airlines' partner through this service agreement. Safran Nacelles is committed to supporting the continuously growing market segment in China, with efficient nacelles systems and flexible service solutions.”*

These contracts are carried out as part of the NacelleLife™ support and services packages, which cover all Safran Nacelles' after-sales activities and aims to provide a responsive, reliable, cost effective and high-quality service.

(*) CFM International is a 50/50 joint company between Safran Aircraft Engines and GE

(**) OEM: Original Equipment Manufacturer

Safran is an international high-technology group, operating in the aviation (propulsion, equipment and interiors), defense and space markets. Its core purpose is to contribute to a safer, more sustainable world, where air transport is more environmentally friendly, comfortable and accessible. Safran has a global presence, with 76,800 employees and sales of 15.3 billion euros in 2021, and holds, alone or in partnership, world or regional leadership positions in its core markets.

Safran is listed on the Euronext Paris stock exchange and is part of the CAC 40 and Euro Stoxx 50 indices.

Safran Nacelles designs, integrates and ensures the support and after-sales service of the aircraft nacelles. The company is a world leader in the 100+ seat commercial aircraft, business jets and regional aircraft markets. At the forefront of technology, Safran Nacelles offers increasingly aerodynamic, lightweight engine-integrated nacelles with advanced acoustic treatments to help reduce CO₂ and aircraft noise emissions.
