Authorization of FAA-certificated Repair Station located outside the United States

Dear Mr. Viladoms,

This letter authorizes Safran Aircraft Engines Americas SA de CV, Certification No. 3SMY129B to perform maintenance and modifications on aeronautical products, excluding aircraft, under TCCA regulatory control pursuant to Section B, Paragraph 4.0, of the FAA/TCCA Maintenance Implementation Procedures (MIP).

This authorization is limited to CFM 56-5A, 5B & 7B and LEAP 1A & 1B engines manufactured by CFM International. The work performed must be within the ratings and limitations contained in your 14 CFR Part 145 certificate, operations specifications and current capability list Rev 49 dated 2024-01-09. Any changes applied to your certificate, operations specifications, or capability list will invalidate this authorization and a new authorization request will be required by TCCA.

This TCCA authorization shall remain in effect until your FAA Repair Station Certificate expires 2024-09-30, or if the certificate has been surrendered, suspended or revoked. To renew this authorization, TCCA requires Safran Aircraft Engines Americas SA de CV to provide their renewed certificate, and demonstrate compliance with the MIP Section B, Paragraph 4.1, as part of their new authorization request.

Best Regards,

Craig Dennis
Civil Aviation Safety Inspector, Operational Airworthiness
