### CFM International, Aviation Capital Group Announce Order for Additional LEAP-1A Engines

- Brings total orders for LEAP-1A-powered A320neos to 33 aircraft

**FARNBOROUGH, England – 17 July 2018** – CFM International and Aviation Capital Group LLC (ACG) today announced the selection of LEAP-1A engines to power 10 firm Airbus A320neo family aircraft. ACG has also secured the option to purchase 18 additional LEAP-1A engine shipsets to power Airbus A320neo family aircraft. This firm engine order is valued at \$300 million U.S. at list price.

“LEAP technology is delivering some impressive operating economics,” said Khanh T. Tran, CEO of ACG. “The engines in service are providing very high daily utilization and significant fuel burn savings, providing enhanced value to our airline customers.”

The LEAP engine family continues to perform exceptionally well in commercial service. There are 61 airlines currently operating more than 385 aircraft powered by LEAP engines on five continents. Overall, the fleet has logged more than 700,000 flight cycles and 1.5 million engine flight hours while maintaining CFM’s industry-leading reliability and the highest utilization rate in this thrust class. The engine is delivering a 15 percent improvement in fuel efficiency, with an equivalent reduction in CO<sub>2</sub> emissions; and lower noise and NO<sub>x</sub> emissions.
