

PRESS RELEASE

Safran extends contracts with Spirit AeroSystems to provide electrical harness manufacturing and installation services

Farnborough Airshow – 18 July 2018 Spirit AeroSystems has renewed its confidence in Safran Electrical & Power to provide electrical harness manufacturing and installation services

These contract extensions include more than 50 assemblies for the Boeing Next-Generation 737 and 737 MAX pylon wire harnesses, Boeing 787 guard wire assemblies and wire harnesses for the 767 Tanker. The harnesses will be produced in the Safran Electrical and Power North America plants in Denton, Texas, and Chihuahua, Mexico, while installation services will be provided onsite at Spirit AeroSystems in Wichita, Kansas.

"We have a long-term collaboration with Spirit AeroSystems that spans more than a decade. Our business with this customer began with activities on the Boeing 787 and has since grown to include manufacturing and services support for additional airframes", said Steve Mears, Director of Sales and Marketing of the division EWIS Americas of Safran Electrical & Power.

Visit the Safran Chalet at Farnborough Airshow from 16 to 22 July 2018: N° C6

Safran is an international high-technology group, operating in the aircraft propulsion and equipment, space and defense markets. Safran has a global presence, with more than 58,000 employees and sales of 16.5 billion euros in 2017. Safran is listed on the Euronext Paris stock exchange, and is part of the CAC 40 and Euro Stoxx 50 indices. With Zodiac Aerospace, acquired by Safran in February 2018, the Group now has over 91,000 employees and will generate an estimated 21 billion euros in adjusted annual revenues (2016 pro forma figures).

Safran Electrical & Power is a world leader in electrical systems for aircraft, ranked No. 1 for wiring and No. 2 for power generation, while playing a key role in the development of more electric aircraft. The company has more than 13,000 employees in 12 countries.
