Safran inaugurates flagship regional site: Safran Toulouse

Toulouse, September 27, 2016.
Philippe Petitcolin, Chief Executive Officer of Safran, has inaugurated Safran Toulouse, the Group’s consolidated regional site, located near the Toulouse-Blagnac international airport. The ceremony was attended by a number of VIP guests, including Carole Delga, President of the Occitania (southern France) Region, and Pascal Mailhos, the Regional Prefect.

Safran’s regional figurehead
Safran has deep roots in the Occitania region of southern France. It is the third largest aerospace employer in the region, with a strong local footprint represented by the newly consolidated site, Safran Toulouse. Safran Toulouse spans some 25,000 square meters (270,000 sq ft) in the heart of the Andromède business zone in Blagnac. With a total of 1,300 employees, it consolidates Safran’s service businesses that had previously been scattered in the greater Toulouse area. Safran Toulouse houses the Group’s regional office and several shared services centers (payroll, purchasing), along with Safran Electrical & Power’s headquarters and research labs dedicated to “more electric” aircraft, Safran Engineering Services’ headquarters and design department, and local branches of Safran Electronics & Defense and Safran Aircraft Engines. From the laying of the cornerstone to commissioning, the construction project took 19 months.

Fostering cross-functionality and wellbeing
From the outset Safran wanted a building design that encouraged cross-functional collaboration. Architect Jean-Michel Wilmotte designed this office complex as a sort of hub, inspired by modern airports, to foster exchanges at all levels. The three buildings are joined by a common space, the Agora (Greek for marketplace), offering employees a restaurant, cafeteria, fitness center and concierge service.

While the interior design is mostly open-space, there are also 90 meeting rooms available to staff. Meetings can be organized between remote sites, using interactive whiteboards. Safran Toulouse features a state-of-the-art environmental design, and has been certified to the HQE® NF high-quality environmental standard for service sector buildings.

“In May 2016 we brought together all Group companies under a single brand name, Safran, to bolster our technological leadership and accelerate our growth in France and around the world,” said Philippe Petitcolin, Chief Executive Officer of Safran. “Our new Safran Toulouse site will help us meet these same objectives, while further expanding our renown. It also strengthens our employees’ feeling of belonging to a single enterprise, by breaking down barriers, supporting cross-functional projects and bolstering cooperation in general.”
SAFRAN IN OCCITANIA (SOUTHERN FRANCE REGION)

3rd LARGEST AEROSPACE EMPLOYER

3,200 EMPLOYEES
600+ SUPPLIERS

1,300 EMPLOYEES
25,000 m² OF OFFICES ON 5 FLOORS

-30% LOWER ENERGY CONSUMPTION THAN REQUIRED BY 2012 REGULATIONS

2,900 m² OF GARDENS AND PATIOS

5 BUSINESS LINES AT SAFRAN TOULOUSE
- Safran SA (regional bureau)
- Safran Electrical & Power
- Safran Engineering Services
- Safran Aircraft Engines
- Safran Electronics & Defense

1 SHARED SPACE FOR ALL EMPLOYEES
- Company restaurant
- Cafeteria
- Fitness center
- Concierge service

PROJECT LAUNCH: JULY 2013
CHOICE OF ARCHITECT: SEPTEMBER 2013
CORNERSTONE: SEPTEMBER 2014
SITE COMMISSIONED: MARCH 2016
INAUGURATION: SEPTEMBER 2016
Safran is a leading international high-technology group with three core businesses: Aerospace (propulsion and equipment), Defence and Security. Operating worldwide, the Group has 70,000 employees and generated sales of 17.4 billion euros in 2015. Working independently or in partnership, Safran holds world or European leadership positions in its core markets. The Group invests heavily in Research & Development to meet the requirements of changing markets, including expenditures of more than 2 billion euros in 2015. Safran is listed on Euronext Paris and is part of the CAC40 index, as well as the Euro Stoxx 50 European index.
