Safran signs contract to support European NH90 engines

12 December 2016, Bordes

Safran Helicopter Engines has signed a 10-year contract with NAHEMA (NATO Helicopter Management Agency), to support RTM322-powered NH90 operated by the French Army Light Aviation (ALAT) and French Navy. This contract also covers the NH90 operated by Belgian Army and Navy and the Royal Netherlands Armed Forces. This contract will cover 130 rotorcraft in coming years for a turnover of 180 Million Euros. It is first Safran’s Global Support Package (GSP) contract signed to support NH90 fleet.

This agreement satisfies the NAHEMA and Nations requirement for optimum availability of engines during their search and rescue and military operations, both at home or while on deployment.

The GSP guarantees turboshaft availability at a fixed price per engine flying hour, and enables military operators to focus on their core activities. This close technical partnership with the OEM provides the customer with full budget control during the contract period.

Fortunato di Marzio, NAHEMA General Manager, said: “This GSP will allow the French, the Belgian and the Dutch NH90 operators to benefit from a very effective engine-support for their RTM322 engines, especially during their operational tasks. The contract is the result of a very good and fruitful partnership between NAHEMA and Safran Helicopter Engines”.

Franck Saudo, Safran Helicopter Engines Executive Vice President Support & Services, said: “This contract marks a major new milestone in our partnership with NAHEMA and French, Belgium and Dutch armed forces. We will deliver world-class services to guarantee their engine availability; thus demonstrating that the GSP model is particularly well-suited to supporting the engine fleets of modern air forces”.

**Safran** is a leading international high-technology group with three core businesses: Aerospace (propulsion and equipment), Defence and Security. Operating worldwide, the Group has 70,000 employees and generated sales of 17.4 billion euros in 2015. Safran is listed on Euronext Paris and is part of the CAC40 index, as well as the Euro Stoxx 50 European index.

**Safran Helicopter Engines** is the world’s leading manufacturer of helicopter engines, with more than 72,000 produced since being founded. It offers the widest range of helicopter turboshafts in the world and has more than 2,500 customers in 155 countries.
