Labinal Power Systems has been awarded Sikorsky Supplier Gold status for the fifth consecutive year

Denton, TX - May 19, 2015

Labinal Power Systems (Safran Group) has been awarded, for the fifth consecutive year, Sikorsky Supplier Gold status, which recognizes best-in-class performance in quality, delivery and customer satisfaction. The company was distinguished at Sikorsky’s annual Supplier Summit, held on May the 13th, 2015, in West Palm Beach, Florida.

Labinal Power Systems out of Denton, Texas, is a Sikorsky supplier for Electrical Wiring Interconnection Systems for the UH-60M Black Hawk and the MH-60R Seahawk, that are two of the U.S. Army’s multi-mission helicopters.

“We are very proud to rank us among Sikorsky's 15 current Gold Suppliers since 2010, providing high quality products and maintaining a standard of excellence to keep our customers satisfied. We are committed to continuously improve our processes for increased proficiency and performance. », said Jorge Ortega, Executive Vice President & General Manager EWIS Americas, Labinal Power Systems.

“Supplier Gold is the highest level of performance that a company can achieve. Sikorsky's renewal of their confidence in us acknowledges our customer relationship management and is a sign of a successful collaboration. We aim to go above and beyond to fulfill the needs of our customers », 
added Alain Sauret, CEO of Labinal Power Systems.

-----

Labinal Power Systems groups all of Safran's electrical power system businesses for the aviation market, encompassing aircraft electrical systems (generation, distribution, conversion, wiring, load management, ventilation, systems integration and support services), along with engineering services for the aerospace, auto and rail sectors. With 14,200 employees in twelve different countries, Labinal Power Systems is a world leader OEM which is at the heart of the strategy and the research on the more electric aircraft.
