

SAFRAN CORPORATE VENTURES

SAFRAN'S INVESTMENT SUBSIDIARY

PURPOSE: accelerate Safran's innovation roadmaps

INVESTMENT STRATEGY

-  Innovative **high-tech startups**
-  **Coinvestment**
-  **Seed stage investment**
-  **Partnership with Safran companies**

KEY FIGURES

-  **17 startups** in our portfolio
-  **3 funds**
-  **500+ startups** analyzed every year

BUDGET OF

€130M

AVERAGE INVESTMENT €1M to €5M

3 PRIORITY AREAS

DECARBONIZATION

SOVEREIGNTY

DIGITAL

PORTFOLIO OF COMPANIES

DECARBONIZATION

2024 AVNOS

CO₂ capture

2023 ELECTRA

Small hybrid-electric aircraft

2022 INERATEC

Carbon-neutral synthetic fuels manufacturer

2022 Cranfield Aerospace Solutions

Electrification of small aircraft with fuel cell

2022 SINTERMAT

Innovative materials

2021 AEROFLUX

Electric aircraft brake systems

2019 ELECTRIC POWER SYSTEMS

Lithium-ion batteries and active battery management systems

2017 TURBOTECH
SMART ENERGY FOR MOTION

Turboprops and turbogenerators for light aviation and electric aircraft

SOVEREIGNTY

2024 Greener wave.

Electromagnetic connectivity

2023 VYOVA

Space debris monitoring

2023 blackshark.ai

Geospatial intelligence

2019 out sight

3D cameras for remote material identification and data processing

2017 cailabs
SHAPING THE LIGHT

Optical technology for networks and additive manufacturing

2017 KALRAY

Next-generation digital core processors for embedded applications

FUNDS

2024 UNITED AIRLINES VENTURES

Investment fund dedicated to sustainable aviation

2020 TIKEHAU CAPITAL

Investment fund dedicated to support for the aerospace ecosystem

2019 matterwave[®] ventures

Investment fund dedicated to hardware, software and data analytics innovations for Industry 4.0

DIGITAL

2023 numalis

Explainability and validation of AI model

2021 SKYFive

Fast air-to-ground connectivity services

2017 PRODWAYS
THE NEW WAY OF PRODUCING

Materials, equipment and services for additive manufacturing
